## 4.2. Budget

The total budget exclusively for the group tasks (without having in account individual tasks and study sessions) is around **170.00€**.

Lineal 3 year amortization will be **56.67 €**.

## 5. Conclusions

Using these metrics gives us an idea of how expensive our project would be and how much time we spent in comparison to our initial expectations. It seems that we have slightly improved in estimating time and calculating budgets as well, since the difference between actual costs and estimations are not so far from what we consider a good approximation.
